"I won the Super student award and it was such a surprise because I never thought that would happen for me. At first I was thinking 'why me?' I remember looking at the wall of super students and couldn't believe I would be there. I liked that at every end of the session you do something special in class. Either eat together in the morning, or go to a museum. This is really cool. It's a good way to say goodbye to the students that are going home. "ILSC New Delhi has a great learning environment. I came here to improve my English. I used to struggle to find words while talking in a group and was shy to speak incorrectly, especially the pronunciation. I never expected that I'll get individual attention, unlike at the previous school. My teacher is also a nice and lovely person. The staff here is also very kind and helpful. The area around the school is also safe."
