Camps

Good summers are fun
Great summers change you
Learn for life

Experience is not
the opposite of learning,
it is learning

A Learning Adventure for every age

Academic Summer runs summer camps and programmes for students age 7 to 17 in London and Bristol.

We welcome children and teenagers from around the world who come to learn English the way it should be learned — through experience, adventure and real communication, not grammar exercises in a classroom.

We do not teach English as a subject

We teach everything in English

This is CLIL — Content and Language Integrated Learning. The best learning comes from trying, debating, creating, exploring and connecting. We teach the skills that matter most right now!

Critical thinking
question everything, including us

Human judgment
the one thing no algorithm or AI can replace

Truth literacy
know what is real, what is fake and what is missing

Creativity
the one thing AI can imitate but never truly own

Confidence
the courage to lead, to disagree and to try again

The only UK summer programme with its own dedicated app

This is part of who we are, a programme that uses technology to make learning safer, more connected and more independent.

— ages

7 to 17

LONDON

Academic Summer Camps have the best summer school address in London — right in the heart of Westminster, opposite Big Ben and near the London Eye

SUMMER DAY CAMP

ADVENTURERS IN LONDON

— ages 7 to 10

The mornings are spent in small classes led by experienced primary teachers who know how young learners think, explore and grow. Every lesson is hands-on and creative and learning feels like discovery not school.

In the afternoons, Adventurers head out into the city with their teachers. Trips bring the learning to life, and every day ends with happy children who have seen, done and discovered something new.

THE RIGHT COURSE FOR YOU

EXPERIENCE LONDON

— ages **11 to 17**

Project-based approach brings together English and real subjects, London becomes the material. You do not just visit London, you experience London, and you understand it.

Three hours of lessons a day bringing your London trips to life

- English development
- Advanced vocabulary
- Real communication skills
- Cross-curricular humanities (history, politics, economics, culture, sustainability)

Not from a textbook but from experiencing London.

Content · Communication · Culture · Cognition

English as a global language, lived out in one of the world's most cosmopolitan cities.
