ATLAS JUNIOR SOCIAL PROGRAMME

We believe that in order to get the most from our programmes, students should be exposed to English not just in the classroom but in a variety of environments and contexts. That's why our social and cultural programme is so important to us and why we spend so much time and energy making sure that it is as vibrant and interesting as possible.

Our fully supervised social and cultural programmes are designed to provide students with more opportunities to use their English outside the classroom. The activities and excursions are integrated with learning in the classroom so that students can get the most out of the cultural visits.
