Taught through authentic task-based lessons, both pathways focus on real communication and the 21st-century skills students need for future success.

Learn English

One Programme, Two Pathways. Dynamic, active English designed for every learner – from building fluency to stepping up to real-world communication.

Rather than separating students into completely different courses, we offer one programme with two pathways:

One programme - two pathways

English Foundation Pathway

For Level: A1-C1

For students who are still developing core fluency and confidence. They focus on building functional English, practical grammar and everyday communication, supported by project work and real-life language use.

Focus Areas:

- Fluency for everyday and social contexts
- Functional language for teamwork
- Grammar and vocabulary in action
- Group projects with clear language support
- Teacher-led lessons

Step-Up English Pathway

For Level: B2-C2

Suitable for mature students who already use English confidently and want to develop the skills needed for real-world academic, professional and leadership settings.

Focus Areas:

Real English for seminars, presentations and debates.

- Advanced language drawn from current global issues and careers
- Critical thinking and confident, persuasive communication
- Projects inspired by real industries (e.g. media, business, law, technology)
- Student-led discussions and tasks shaped by class interests

Lessons use only authentic, up-to-date materials - no textbooks, no simplification - to reflect how English is used in life beyond the classroom.

Determining Students' Level

HOW IT WORKS IN PRACTICE

All students join the Exsportise English Programme.

- On arrival, students are placed into the appropriate Pathway based on their level, maturity and speaking confidence.
- Both Pathways follow the same active, project-based approach - just at different levels of complexity and challenge.
- If ready, students can move up during their stay.
- At the end of the course, all students take part in a final project showcase and receive a personal learning portfolio.
- Exsportise teachers monitor student progress throughout the course. Upon completion of the programme, students receive an end-of-course certificate and an academic report.

WHY THIS WORKS SO WELL

- Unified programme with internal pathways.
- Keeps the course inclusive and flexible, especially for international groups with mixed abilities.
- Allows for clear progression within a single branded programme.
- Creates a shared experience with appropriate challenge for all learners.
- Students can move between pathways.

ENGLISH BEYOND THE CLASSROOM

At Exsportise, English becomes an integral part of students' daily life. Practising English during Sports activities and other recreational activities gives students the perfect opportunity to fully immerse themselves in the language.

SPORTS

Students choosing one of our Sport activities (Tennis, Basketball, Dance, Football, Golf, Hockey, Horse Riding, Music, Rugby, Volleyball) must have at least one year of regular participation in their chosen activity.

This ensures students are placed in a

suitable training environment and can get the most out of the experience.

For students who want to explore something new or enjoy more variety, we also offer Multi Sport, a beginner-friendly option. This is ideal for students looking to try new activities, build their confidence and have fun - no previous experience required!

“

As someone with a lifelong love of sport and a powerful belief in education, I am passionate about combining them to help young people: to connect with others; to increase their self-awareness; to build confidence in their own abilities; and to grow their self-belief so they can go on and become the best version of themselves.

Life on Campus

Team Orange is what makes Exsportise camps so special for students and staff together.

All our staff - teachers, coaches, house parents, welfare, course assistants and head office - are very carefully chosen for their authenticity, resilience, teamwork and overall sense of care and responsibility.

Being on Team Orange is why so many of our staff come back again and again to work with us and provide an amazing experience for our students. Team Orange is unique to Exsportise. It's how, and why, the magic happens on our summer camps.

Being on **TEAM ORANGE** means we:

- are givers not takers
- allow people to make mistakes, without fear, and learn from them
- are team players
- are kind, caring and respectful
- encourage and explore
- challenge and coach, constructively
- lead by example
- go "the extra mile"

Our Electronic Device Policy: At Exsportise, we use the term "phubbing" to describe the action of ignoring the people around you and instead paying more attention to your phone. We actively encourage students to Connect for Real when socialising with their peers and friends, without needing their phones.

At Exsportise, student welfare is our number one priority!

24/7 Medical and Welfare Support: With the industry leading Staff to Student ratio (1:4), we treat students as individuals and personalise our care. Each camp has on-site Medical Officers, House Parents and a designated Welfare Manager with a wealth of experience providing constant supervision and support.

Accommodation: Students are accommodated in separate areas for boys and girls and usually share their bedrooms with two or three students of similar ages. Each house is managed by a dedicated House Parent, ensuring safety, well-being, and happiness throughout their stay.

Student voice: As well as anonymous suggestion boxes and on-going open dialogue, every week students have the chance to share their feedback and give suggestions to enhance their stay.
