

A Summer to Shape Your Future

Oxford Royale Academy
inspirational cultural and academic courses

OXFORD | CAMBRIDGE | YALE | LONDON | NEW YORK | DUBAI

FOR AGES 12-18

WELCOME

to Oxford Royale 2026

We're so pleased you're considering spending next summer with us at one of our world-leading, award-winning academic summer schools.

Designed exclusively for ambitious young people, you'll enjoy unparalleled learning and cultural experiences, discover a brand new destination – and make friends for life from all around the world.

You'll also become part of our prestigious list of Oxford Royale alumni, many of whom have gone on to study at the world's most respected universities and forged incredible careers in their fields.

Our unique approach to learning is shaped by our belief that education is about far more than a formal classroom. Alongside academic excellence, we offer rich cultural and learning experiences to motivate young people to achieve their true potential, driving them to success on paths they may not have previously considered.

We'd be delighted to welcome you to one of our courses in 2026 – and kick-start your future with an Oxford Royale summer of a lifetime!

Andy Palmer
CEO
Oxford Royale

Our Story

For 20 years, Oxford Royale has led the way in pre-university education, setting the standard that others aspire to follow. Since our founding, we have welcomed over 35,000 students from more than 175 countries, providing a richer, broader learning experience that is unmatched anywhere else. Our excellence has been recognised repeatedly, including three Queen's Awards for Enterprise, the King's Award for Enterprise, and five BETA Awards for Best Educational Product—proof that we don't just participate in education; we shape it.

At the heart of Oxford Royale is an extraordinary team, united by a single goal: inspiring young people to reach their full potential. For two decades, our proven approach has consistently motivated students to exceed their own expectations and explore paths they might never have imagined. While others follow, we continue to innovate, refine, and lead—ensuring our students are always a step ahead.

Our courses offer more than knowledge; they provide confidence, insight, and a competitive edge for university and career success. Students live the life of an undergraduate at a world-class university, exploring the subjects that excite them and preparing for their futures. Beyond the classroom, they experience the cultural richness of the UK, US or UAE and form lasting friendships with peers from every corner of the globe.

The Oxford Royale Great Debate

The Experience

“Oxford Royale was the only programme we found that truly showed what becoming an engineer means. My son Eric, 13, joined the Introduction to Engineering course at St Peter’s College, and he absolutely loved it.

The experience gave him not only a deeper understanding of engineering, but also the confidence of travelling to England alone and living in college accommodation. Everything was smooth and professional, and the staff were so supportive. I’m certain this experience will help him stand out in his future studies and applications.”

Mario Kleiss, Parent

World-Class
Locations

175+

Nationalities

Often young people who are capable of exceptional academic, personal and commercial success are simply not aware of opportunities that are available to them.

By offering young people a taste of life at an elite university, multi-cultural experiences and innovative subject matter, we can help them to identify their strengths, passions and ambitions. Many of our alumni have continued their studies at some of the top universities in the UK and US, such as Oxford, Cambridge, Princeton and Berkeley, and have gone on to great careers and to make tremendous contributions to industry and research.

All our programmes encourage debate and build analytical and collaboration skills. The courses incorporate practical problem solving, helping students to understand how new concepts can be applied to solve global issues. We offer opportunities to take part in sport and social activities throughout the courses, and provide trips to world-famous cities and landmarks.

A Lifetime of Impact

At Oxford Royale, studying with us is more than a memorable experience — it is a launchpad for future success. Students learn from leading experts, explore remarkable places, gain skills and confidence that shape what comes next. They return home not only with knowledge but the drive to make their mark.

Students delve deeper into subjects they love or uncover new passions, guided by expert teaching and exceptional resources that illuminate both academic and career pathways. From world-class lectures to hands-on projects, they gain practical insights and a portfolio of achievements that strengthen university applications and open doors to future opportunities.

Learning, right where it happens - Oxford Royale law and politics students on an excursion to the centre of UK justice

Our programmes blend classroom learning with unforgettable experiences from punting on the River Cam to walking through Times Square. Carefully curated excursions and enrichment activities complement academic study, offering deeper insights into history and culture, and creating memories that last a lifetime.

Some lessons stay with you not because they were taught, but because they were experienced. At Oxford Royale, students gain new knowledge – and, more importantly, learn more about themselves and what they want for their future.

What Sets Us Apart

At Oxford Royale, we create experiences that go far beyond the classroom. Our programmes are hosted in some of the most inspiring locations in the world — from the historic colleges of Oxford, Cambridge, and Yale to the vibrant cities of London, New York, and Dubai. These settings give students a genuine taste of life at leading universities and access to venues few others can offer.

Our curriculum has been carefully developed over 20 years, blending university-style teaching with practical workshops that are updated each year to reflect new ideas and emerging trends. Expert tutors from world-leading universities deliver programmes that challenge and inspire, while practical workshops turn theory into lifelong skills for university, careers, and beyond.

With students joining from over 175 countries, we offer a truly global community where friendships and connections last long after the summer ends. Every programme is delivered on secure campuses and overseen by senior educational leaders with decades of experience, ensuring exceptional care and a safe, enriching environment for young people to thrive.

That's why, for over two decades, Oxford Royale has continued to set the standard for academic summer schools worldwide.

Student speaking at debate. Discover your voice and your future, debating at the world-famous Oxford Union — the stage of global leaders past and present.

A Global Community

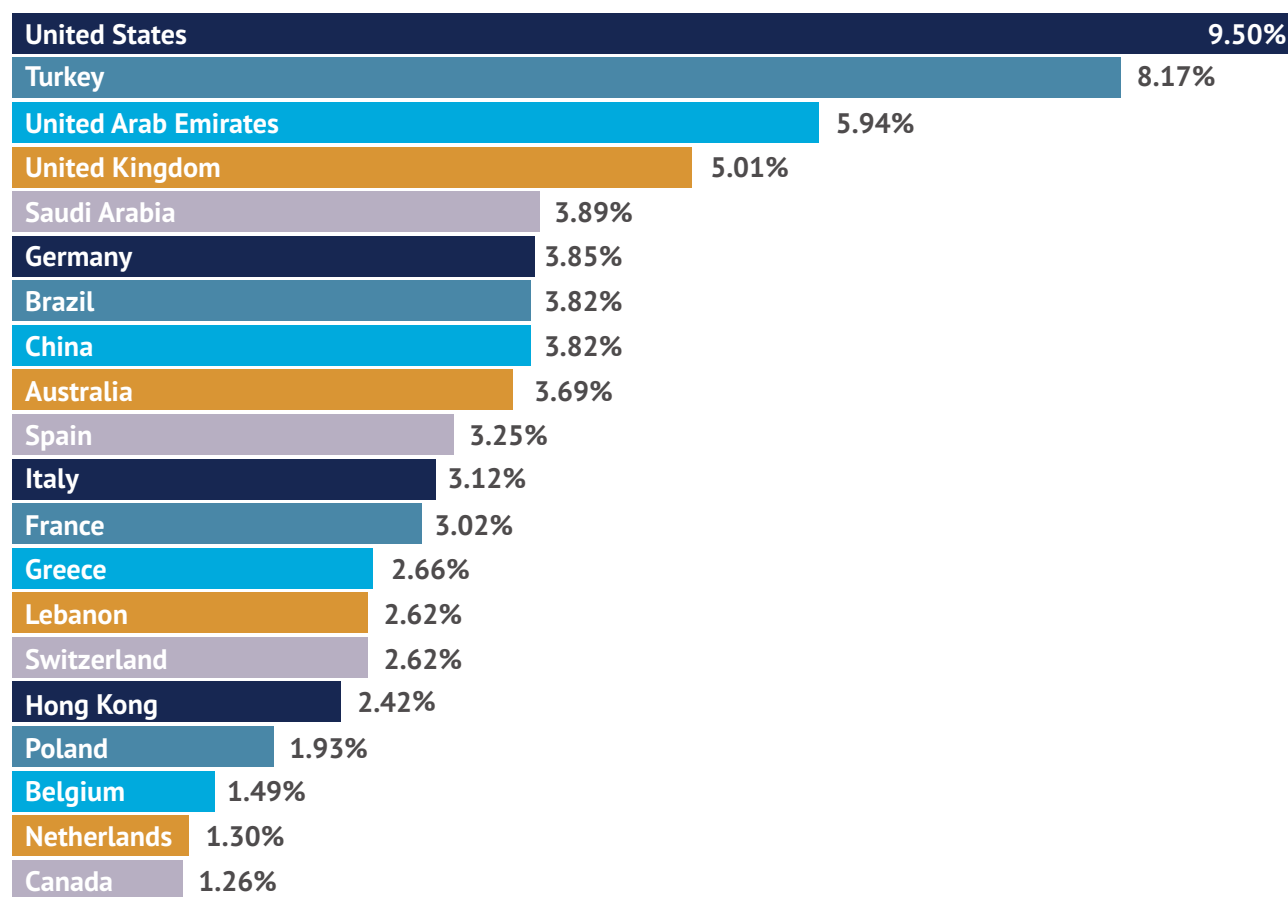

We believe that global awareness, varied cultural experiences and broad international networks are key to carving a truly strong and successful path in a highly competitive world. Oxford Royale's summer schools offer exactly this. All of our courses are designed to build confidence and experience, and we proudly welcome students to our global family.

Young people join Oxford Royale from all corners of the globe. During their time with us, they embrace the different cultures that other students bring to the mix. These international relationships last well beyond the summer school, giving our alumni a tremendous springboard for their future.

With a focus on global awareness, time is set aside on every course for cultural enrichment. This takes many forms, from allowing students to learn informally from one another, to organised debates, practical activities and trips to cultural landmarks.

Our Alumni Achieve Great Things

Thibaut Monfort-Micheo

Co-founder and Head of R&D, Flex-Sea

MEng: Imperial College London

Studied with Oxford Royale in 2015

Thibaut attended an Oxford Royale summer school in 2015, where he enjoyed experiencing a different style of education and came to understand what was needed for him to get a place at a top UK university. He gained a degree in materials engineering at Imperial College London and rapidly went on to co-found his own company, creating innovative packaging from sustainable materials.

“My Oxford Royale course really confirmed my belief that I wanted to go to university in the UK and helped me to understand what I needed to do to get there. This decision, and studying at Oxford Royale, has been the foundation for my career; I gained a degree in Engineering from Imperial College London and then jointly founded a company. We’re developing a new edible, biodegradable material based on seaweed that is set to revolutionise the packaging industry. Learning with Oxford Royale was so enjoyable, it didn’t feel like studying at all.”

Eleonora Svanberg

Founder of Girls in STEM, Published Author and STEM Influencer

PhD Student in Theoretical Physics,
The University of Oxford

Studied with Oxford Royale in 2016

Eleonora attended an Oxford Royale summer school in 2016, where studying Physics and Academic Writing helped her grow in confidence and deepen her passion for science. She describes it as an inspiring and memorable experience that encouraged her to aim higher in her academic journey. Today, she is a PhD student in theoretical physics at the University of Oxford and the founder of Girls in STEM, a non-profit organisation empowering young women to explore careers in science and technology.

“I had always wanted to experience Oxford and was interested in pursuing physics research in the future, so mathematics and physics felt like a perfect fit. I loved the teaching – it was smaller classes which allowed for more discussions and 1:1 time with the teachers. The best part, though? The confidence I gained afterwards. I knew I could take any future academic challenge! It was an amazing opportunity I’ll cherish for life.”

Usama Bin Shafqat

Software Engineer, Google

Bachelor of Science, Computer Science:
Princeton University

Studied with Oxford Royale in 2012

Usama attended an Oxford Royale summer school in 2012 and found it to be a hugely beneficial experience, helping him to grow as a person and providing him with lots of fun and new friendships. He credits his successful application to Princeton in part to his experience with Oxford Royale, as he feels that it helped him to come across in interviews as a more rounded person, standing out from other applicants.

“Preparing my Oxford Royale application and attending the summer school was the highlight of my year. Our group had a great vibe as everybody was motivated to socialise and try new things in the short time we had together. Learning from new teachers with a different perspective gave me a real boost. When the time came to apply to university I had the language, knowledge and experiences to set myself apart as a serious candidate.”

Konstantinos Barmpas

Machine Learning Engineer, Cogitas

MEng, Electrical and Electronic
Engineering, Imperial College London
PhD in Machine Learning & Computing,
Imperial College London

Studied with Oxford Royale in 2015

Konstantinos attended Oxford Royale's Engineering course in 2015. Hailing from a small town in Greece, this was his first taste of life as a student studying abroad. The experience enabled him to grow in confidence, and he learned new skills that would later help him during his studies at Imperial College London, one of the world's most prestigious universities.

“My time at Oxford Royale was a transformative experience. I had always dreamed of studying a broad, but it seemed like an impossible goal. In two short weeks, the summer school showed me that my dream was within reach. We visited Imperial College London, and I was immediately impressed by the university's world-class facilities and vibrant student community and Imperial became my first choice for further study. Thanks to Oxford Royale I am living my dream.”

Learn from the Best

Bruce Windwood

TV & Film

Bruce Windwood is one of Oxford Royale's most senior tutors, having helped design and develop its filmmaking classes.

A multi-award winning filmmaker, his credits include the internationally sold comedy feature *12 In A Box*. He is also a commissioned writer for TV and audio, and composes soundtracks for film, audio, and TV. Bruce regularly teaches short and long-form filmmaking at the National Film & TV School and Film Oxford, inspiring students to explore storytelling across visual and auditory media.

Dr Anisa Butt

Business, Innovation & Entrepreneurship

Dr Anisa Butt is a lecturer in Economics at King's College London, and completed her PhD in Economics at the University of Reading. Anisa's research focuses on economic inequalities, with a focus on gender and ethnic income inequality. She contributed to the book *Gender Inequality in the Eastern European Labour Market*, through carrying out comparative analysis on gender equality research. Anisa has taught undergraduate and A-level students, and has been a part of the Oxford Royale team for more than 3 years.

Dr Ameer Janabi

Researcher, Engineer & Entrepreneur

Dr Ameer Janabi is a researcher at the University of Cambridge and an entrepreneur in electric mobility and power electronics. He founded Hardcore Power Electronics in the United States, now partnered with FEV North America, and Cambridge Integration in the United Kingdom, which is developing integrated approaches to power electronics. Previously, he worked at Eaton Corporation on power conversion systems for electric vehicles. Ameer is a respected expert in his field and has published widely on power electronics.

Dr Claire Keene

Medicine

Dr Claire Keene is a public health clinician with a Masters in International Health and Tropical Medicine from the University of Oxford. She managed an HIV and tuberculosis project for Médecins Sans Frontières in Khayelitsha, South Africa, leading the project's COVID response in 2020. Claire is experienced in clinical trial management, programme strategy, and policy development, and developed a framework to support decision-making in neonatal healthcare services in Kenya. She continues to champion global health innovation and equitable healthcare access.

Be Inspired by our Guest Speakers

Professor Brian Cox CBE FRS
Physicist and broadcaster

Professor Brian Cox CBE FRS is one of the UK's most renowned physicists and science communicators. He makes complex ideas accessible through bestselling books, acclaimed TV series including *Wonders of the Universe* and *The Planets*, and international live shows. A Professor of Particle Physics at the University of Manchester and Royal Society Professor for Public Engagement in Science, his enthusiasm inspires millions to explore black holes, life's origins, and the cosmos.

Rory Sutherland
Vice Chairman of Ogilvy

Rory Sutherland is Vice Chairman of Ogilvy UK and co-founder of its Behavioural Science Practice, where his team reveals small shifts that transform decisions. A renowned speaker, author, and columnist, he has delivered TED Talks, written for *The Spectator* and *Wired*, and authored bestsellers including *Alchemy: The Surprising Power of Ideas That Don't Make Sense*. With over 30 years at Ogilvy, Rory is celebrated for his wit, creativity, and pioneering use of behavioural science in marketing.

David Olusoga
Historian, writer and broadcaster

David Olusoga is a British-Nigerian historian, broadcaster and film-maker, who has made TV series including *Empire*, and the BAFTA-winning *Britain's Forgotten Slave Owners*. His award-winning book *Black & British: A Forgotten History* was also made into a major BBC TV series, and he is one of the three presenters on the BBC's landmark Arts series *Civilizations*. In 2020 he conducted an exclusive interview with former President of the United States, Barack Obama.

Helen Sharman CMG OBE
Astronaut and Scientist

Helen Sharman is the first British Astronaut. In May 1991, she spent eight days orbiting the Earth, living and working on the MIR Space Station. Helen enthuses her audience about Space and the wonders of science, describing the meticulous training and preparation, learning Russian, the space experience, launch and landing, and adjusting to life back on Earth. Awarded both the CMG and the OBE, Helen is a full-time scientist, a pioneer and a role model and inspiration for people of all ages.

A Typical Day of Learning and Discovery

8am

The day begins with breakfast alongside your new friends, sharing stories of yesterday's learning and activities. Morning class then opens with an inspirational guest speaker or a member of our exceptional faculty introducing an essential subject topic. Older students will attend lectures during this session, while younger groups engage in focused learning.

11am

The second lesson of the day aims to motivate students and help them explore key themes and issues, going deeper into the subject and encouraging creative thinking, debate and sharing of views.

12:30pm

Lunchtime! Students can enjoy a leisurely lunch with friends or take a walk around campus in the sunshine. Older students can venture out to explore cafés and unique eateries.

1:30pm

Back to the classroom for a practical workshop, or for some time to work on group projects. Students will get hands on in their field of study, from prepping for a mock trial, clinical skills workshops, all the way to researching for a new business proposal.

3pm

Wherever the student is attending an Oxford Royale course, there will be plenty of choice of activities, or chances to enrich their academic experience through practical sessions or project work. Perhaps they'll take a tour of a university college, discover famous filming locations, visit a museum, soak up some culture or take part in sports and leisure activities.

6pm

Dinner at our summer schools is a time to catch up with new friends and faculty members in a different environment. Sometimes a relaxed and casual meal, other times a traditional formal dinner, it's a time to share new knowledge and the fun experiences of the day.

8pm

Students in all locations enjoy evening activities on and off campus, including quiz nights, debating challenges, silent discos and organised trips such as ice-skating and ten pin bowling. At the end of a packed day, it's time to wind down and prepare for another exciting day with Oxford Royale.

Study on Campus at the World's Greatest Universities

Where History Inspires. Your Future Begins.

From the halls of Oxford and Cambridge to the quads of Yale, Oxford Royale places you where world leaders, Nobel laureates, and visionaries study — and where you can begin to shape your own path to greatness.

Oxford Royale is about more than classes: it's about immersion in the traditions, environments, and daily life of the world's most prestigious universities. Students live in historic colleges, dine in magnificent dining halls, and study under the guidance of expert faculty who bring their subjects to life. This is the rare opportunity to experience university exactly as undergraduates do — walking the same corridors, debating in the same rooms, and learning in the same lecture halls as some of history's greatest thinkers.

Our programmes, developed and refined over 20 years, balance academic rigour with inspiration and exploration. Students broaden their intellectual horizons, gain clarity about their future direction, and experience the transformative power of being part of an elite academic community.

With Oxford Royale, you don't just learn — you live the legacy of world-class universities and begin shaping the story of your own success.

“And that sweet city with her dreaming spires..... Lovely all times she lies”

Matthew Arnold

Only an hour away from London, and dating back to 1096, the University of Oxford has been home to nearly half of Britain's 20th-century Prime Ministers, along with Nobel laureates, writers, sports stars, actors and eminent scientists. Alumni include former US President Bill Clinton, former UK Prime Minister Boris Johnson, author of *The Lord of the Rings*, JRR Tolkien, and actors Rosamund Pike and Felicity Jones.

The city offers a mix of cosmopolitan buzz alongside centuries of history and rich culture. The Sheldonian Theatre, where graduation ceremonies are held for university students, has launched many illustrious careers, the Bodleian Library is home to every book published in Britain, and the Ashmolean Museum is the oldest museum in England. Everybody will recognise the dining hall at Christ Church, made famous around the globe as the dining hall at Harry Potter's wizarding school, Hogwarts.

“From this place, we gain enlightenment and precious knowledge”

Motto of the University of Cambridge

Founded in 1209, and again only an hour from London, Cambridge is a picture-perfect, serene city. The University of Cambridge leads the world in science and mathematics, with alumni who discovered gravity, evolution and DNA. Famous alumni include actor Tom Hiddleston, King Charles III, theoretical physicist Stephen Hawking, naturalist Charles Darwin, and physicist Sir Isaac Newton.

Students can explore the rich culture and traditions of this beautiful city, the medieval architecture of King's College, the Mathematical Bridge (said to be built entirely without nails!), and Trinity College's Tudor courtyard. And, with a humming market square, lively restaurants and punts gliding along the River Cam, Cambridge offers something for everyone.

Oxford Royale on Campus at

Yale University

Ages
13-18

“Yale is at once a tradition, a company of scholars, a society of friends”.

George W. Pierson.

Based in New Haven, Connecticut, Yale is a compact and welcoming community, within easy reach of Boston and New York. It was founded in 1701 and is famous for celebrating diverse cultures, for gothic architecture, and for educating many of our world leaders. Alumni include five US presidents, actress Lupita Nyong'o, Samuel F. B. Morse (the father of Morse Code), American songwriter Cole Porter, and Pinterest founder Ben Silbermann.

Alongside the famous architecture and culture of the university, Yale offers an abundance of art, music, theatre and cosmopolitan restaurants. There is free access to its world-class museums and galleries, and over 200 free concerts take place each year. Some of the most famous sights include the Orange Street Bridge, the Beinecke Rare Book and Manuscript Library, and the Harkness Tower.

Study in the World's Most Iconic Cities

The City is Your Classroom. The Future is Your Subject.

From the skyscrapers of Dubai to the trading floors of London and the leadership arenas of New York, Oxford Royale places students at the heart of global innovation — where ideas are tested, industries are shaped, and futures are made.

Oxford Royale is fast-paced, hands-on learning designed for tomorrow's leaders. Students don't just study their subjects — they live them. Whether pitching start-up ideas in a London boardroom, exploring the UN in New York, or touring the Burj Khalifa with leading architects, every experience connects classroom theory to real-world practice.

Our programmes combine Oxford Royale's proven academic framework with exclusive access to the people, places, and industries defining the 21st century. Interactive lectures,

masterclasses from professionals, company visits, and collaborative projects ensure that learning is both rigorous and practical — preparing students with the insight, skills, and confidence to thrive in university and beyond.

With Oxford Royale, the city becomes your laboratory, your stage, your inspiration. This is not just education; it's immersion in the world's most dynamic environments, equipping you to think globally, act boldly, and shape the future.

“New York is not a national city, but a world city.”

Theodore Roosevelt

New York is a city of endless possibilities — vibrant, fast-paced, and full of inspiration. From world-renowned museums to iconic landmarks, Oxford Royale students have the chance to experience two unforgettable weeks in one of the most exciting cities on earth.

Our New York Summer School is hosted at Barnard College, Columbia University, one of America's prestigious Ivy League institutions, located in the heart of Manhattan. Known for its academic excellence, innovative spirit, and pioneering research, Columbia counts among its alumni US Presidents Barack Obama and Franklin D. Roosevelt.

Here, students will be immersed in this extraordinary academic environment while also exploring the cultural, artistic, and business capital of the world. It's an experience that blends Ivy League prestige with the energy of New York City — preparing ambitious young people to think big and aim higher.

Our Approach to Teaching

With small class sizes, lively debates and personal mentoring and support, our teaching methods are proven to bring out the very best in every individual.

As well as interactive workshops and wide-ranging discussion, our programmes also include guest speakers and visiting experts, featuring world-leading politicians, poets, philosophers, scientists and business leaders. We offer cultural enrichment activities, social events and excursions outside the academic timetable, to ensure that every student has a holistic learning and development experience.

Oxford Royale offers courses designed for traditional professions, such as law and medicine, but also courses designed to stretch the boundaries of traditional education, with modules such as making robots, exploring philosophy and creating a film. We also offer a wealth of cultural experiences and workshops to develop crucial life skills such as public speaking, all taught by experts, including some of academia's most eminent lecturers.

All students receive

An official Oxford Royale
graduation certificate

A final grade and
detailed report card

A formal graduation
ceremony, dinner and party

Workshops

Hands-on classes designed to help students learn through practical application.

Masterclasses

An interactive forum with an expert in the field, giving students valuable insights into related and new topics.

Guest Speakers

Successful and famous guest speakers offer students the chance to pose their most important questions.

Debates

Essential for honing students' reasoning abilities and public speaking skills.

How You'll Learn

Interactive Lectures

Dynamic lectures given by passionate teachers packed with facts and viewpoints to engage the audience.

Group Projects

An opportunity to work closely with, and learn from, different perspectives.

Seminars

Working in pairs and small groups, students have plenty of opportunity for discussion and debate.

Educational Trips

Our trips provide real examples of the course subject in action, and bring students' learning to life for them.

Courses for 12 to 15 Year Olds

At an Oxford Royale summer school for 12 to 15 year olds, bright young individuals embark on a remarkable transformative journey of cultural exchange, academic enrichment and personal growth. Often travelling abroad on their own for the first time, our youngest participants grow in confidence and establish their independence in an international environment. To maximise this unique opportunity for growth, they are supported all the way by our academic and pastoral staff.

Meeting peers from across the world, our younger learners forge global connections and create lifelong friendships. Through guided debate and exchange of ideas, they embrace the richness of different cultures and gain fresh perspectives. Outside the classroom they experience two weeks of vibrant social and cultural activities, alongside a calendar of enriching excursions to help them discover their chosen location.

Students in this age group have their intellectual curiosity ignited through techniques more interactive than those normally found in a classroom. We offer a strong educational foundation in a range of subjects not ordinarily available to students of their age, providing insights into fascinating new areas of education. Answering their natural curiosity and eagerness to learn, this taste of entirely new subjects opens up a world of exciting academic and career possibilities to consider.

As part of this huge step towards their future, our students develop critical thinking skills in an environment created by experienced educators. Life skills such as communication, teamwork and problem solving, crucial at this stage of development and vital for personal and professional success, are part of every course. For 12 to 15 year olds, this will be a summer of building both confidence and a strong academic foundation, all while creating unforgettable memories with new friends from all over the world.

“I chose to come to Oxford Royale because I wanted an adventure! I also wanted to explore university life, and learn more about engineering. I love the lessons here because the teachers make the lessons fun while teaching, and we do lots of practical work that is linked to the course which keeps us engaged. Having practical classes, including building models of planes and designing bridges, is different to normal school and makes the subject easier to learn.”

Femi, Nigeria

Courses for 12 to 15 Year Olds

Explore Artificial Intelligence Explore AI gives students hands-on experience with machine learning, computer vision, and generative AI, discovering its power, limitations, and real-world impact. Discover how to work with the technology shaping the future.	Oxford
Explore Business Leap into the exciting world of business, finance and marketing. This course equips students with the skills to launch and manage their own business, helping them to develop the mindset to become ground-breaking entrepreneurs. Students are immersed in compelling case studies and engage with real business entrepreneurs who are taking new business ideas to success.	Oxford Cambridge Yale*
Explore Engineering Investigate the fields of Civil, Mechanical, Biomedical, and Aerospace engineering in a comprehensive introduction to engineering and survey of emerging technical applications, from self-driving vehicles to space travel. Learn to think like an engineer and strengthen critical thinking, problem solving and creativity skills.	Oxford Cambridge
Explore Law Explore Law introduces ambitious young learners to justice, human rights, and courtroom skills through debates, case studies, mediation, and a hands-on mock trial.	Oxford
Explore Medicine Expand your understanding of medicine through practical, hands-on medical simulations and a broad introduction to the basics of human anatomy, physiology and psychology. Investigate the common practices of medicine and biomedical research, and explore the critical competencies needed to become a successful doctor, nurse or psychologist.	Oxford Cambridge Yale*
Film Academy: Oxford Through The Lens Shoot, edit and screen a short film on location. With the University of Oxford – setting of scenes in the Harry Potter films – as your backdrop, gain insights into film production and digital editing as you experience first-hand how to create a film. Working with film industry professionals, you'll also study screenwriting, location scouting and storyboarding.	Oxford
Sustainability & the Environment Preserve life on planet Earth by collaborating in small groups of delegates to generate solutions to some of the challenging issues facing humanity. The course looks at climate change, water resources, food instability and wildlife conservation, and demonstrates how the fields of climate science, politics, law and leadership can work together to beat extinction.	Oxford

**Oxford Royale Courses at Yale are strictly for ages 13-15*

Courses for 16 to 18 Year Olds

Planning for a successful future becomes a top priority for students aged between 16 and 18. This crucial period marks a time when students contemplate which university they might choose, and which field of study to pursue. Many of them are also looking further ahead to consider potential career paths. Oxford Royale's summer schools offer an unparalleled opportunity for ambitious individuals to decide on the next steps toward a bright future.

Our courses take place on campus at some of the world's most prestigious educational institutions, allowing students to experience an authentic taste of both the style of education at university and life on campus. They build confidence and prepare for the independent lives they will lead as they head into their chosen field of further studies.

Gaining fresh perspectives from an international community, our students establish a lasting network to support them on their academic journey. The unique blend of academic, social and cultural pursuits at an Oxford Royale summer school is the perfect motivation as students begin making important decisions for their future.

Each of our courses is meticulously designed to equip students with the necessary tools to pursue their academic aspirations. Through a combination of challenging coursework, collaborative group activities and guidance from our experienced teachers, students are provided with a comprehensive learning experience. Covering both the fundamentals of their subject, and modern day issues and concepts, our courses enable students to apply their knowledge to global situations, and equip them with the tools they need to shape the world around them.

A summer with Oxford Royale will inspire and motivate students aged 16 to 18, granting them a unique platform to explore their academic interests, enhance their knowledge and develop essential skills for future success. This immersive experience brings them the confidence and insights necessary to make informed decisions about their university education and career choices.

Courses for 16 to 18 Year Olds

Architecture & Design

Bring your ideas to life as you apply the core principles of architecture, including planning, design and spatial mapping. Produce a range of architectural drawings and collaborate in teams to propose and present solutions for the urban city of 2050.

Film Academy: Oxford Through The Lens

Shoot, edit and screen a short film on location. With the University of Oxford – setting of scenes in the Harry Potter films – as the backdrop, gain insights into film production and digital editing as you experience first-hand how to create a film with guidance from film industry professionals.

Oxford

“I chose to do a Law & Politics summer school. When I first came here I knew nothing about the subject, but thanks to my amazing teacher I have learned so much. It is a different kind of teaching than I am used to. In such a short period of time I have learned so much which is just fantastic. Our teacher expands and creates different ways of teaching which means we all learn, and understand 100% of the content.”

Gary, Lebanon

Courses for 16 to 18 Year Olds

History, Philosophy & Literature Examine history, philosophy, and literature from classical to modern times, exploring key thinkers, events, and ideas while developing critical thinking, creative analysis, and an understanding of their influence on today's world	Oxford
Law & Politics Examine the interconnection of law and politics, and take the first step towards a legal career. Focusing on emerging issues in these fields, the programme fosters discussion and debate through legal case studies on a broad range of issues ranging from human rights to globalisation.	Oxford Cambridge London
Law & Trial Advocacy Academy Experience the legal process and gain a broad introduction to the theory and practice of law. You'll learn about case preparation, cross-examination and working with witnesses, and how to develop, argue and win a case, applying these skills during a mock trial simulation.	Yale
Marketing Build on business foundations by exploring marketing strategies, consumer behaviour, digital trends, and brand management through practical projects, case studies, and simulations, while developing ethical, sustainable, and data-driven marketing skills.	Oxford
Medicine Explore the fields of biology, genetics, neuroscience, genomics, emergency medicine and human anatomy. Investigate the common practices of medicine and biomedical research, and gain practical insight into a career as a surgeon, doctor, nurse or health professional.	Oxford Cambridge London Yale
Sustainability & the Environment Preserve life on planet Earth by collaborating in small groups to generate solutions to the challenging issues facing humanity. The course demonstrates how the fields of climate science, politics and law and leadership can work together to beat extinction.	Oxford Dubai

“My highlight is the diverse mix of people I have met. It is incredible how fast you can bond with other students you have never met, and make friendships that will last a lifetime. I have made a network of people across the world.”

Kira, Austria

Enrolling on a Course

How to enrol

The quickest and easiest way to enrol on one of our award-winning summer schools is via our secure booking system, available at **apply.oxford-royale.com**

Our online application form takes a few moments to complete and requires the name and details of the student enrolling, as well as those of the person paying the fees. All applications require selection of subject, location and dates.

We require payment of the relevant deposit at the time of booking. A credit or debit card payment is preferred, but other options are available on request.

If there is space on the chosen course, the place will be confirmed immediately by SMS and email on receipt of the deposit payment.

Login details for the Oxford Royale Portal are also sent on receipt of the deposit. The Portal is where our students manage their booking, and find all the information they'll need for their course.

Our Admissions Advisors are available for enquiries and questions via email **admin@oxford-royale.co.uk** or by phone on **+44 (0) 1865 954 800**.

Early booking is advised to ensure availability on the course and venue of choice.
